Considerations for the Resident Education Committee:
- What about recognizing outstanding M.S. or Ph.D. students in the society? This was a question raised by Valarie Mock.
- What about sending poster and paper presentations early to judges? What about having the poster hard copies available Monday night and having posters up at this time. Have the poster chair suggest this on the web-site in the student instructions.
- Include on websites for newsletter need to bring hard copies of posters. What about trying to get the posters up early Monday? Getting in week early probably worked fine for papers. Give thought on possible changes maybe include if presentation before Tuesday morning. Set up Monday night for poster with handouts. Include these suggestions in the student’s instructions for the NCWSS contest.
- There was a suggestion of having the students in the paper contest send their slides to the section chairs in advance and have the section chairs print them off as black and white, 6 per page and assemble packets for judges. This discussion was tabled.
