# President's Welcome

## 2017 North Central Weed Science Society Meeting

Welcome to the 72<sup>nd</sup> annual North Central Weed Science Society at the Hyatt Regency at the Arch in St. Louis, MO. St. Louis is called the "Gateway to the West" in tribute to its role in the westward expansion of the United States. I hope you find this meeting a gateway to great achievements in weed science. I am eager to learn the latest research, education, and outreach activities in the field of weed science. I hope you use this opportunity to meet with your fellow NCWSS members to learn about new technologies, share information and experiences, and visit with your friends.

Greg Elmore and the Local Arrangements Committee have been working hard with the hotel staff to prepare for our meeting. The venue is excellent and I anticipate that the staff will meet and exceed all our expectations.

Program Chair, Christy Sprague, has assembled an excellent program. The program includes some interesting symposia including: "Weed Management through Equipment and Application Technologies" on Wednesday morning, "Taking the Next Step: Preparing for your Future Career", and "An Open Dialogue on Dicamba Technology" on Wednesday afternoon. The popular **"What's New in Industry" Session will take place on Thursday morning** following the Industry breakfast. We have a full slate of poster and paper presentations and will again be using the Guidebook App to assist you in planning your schedule.

I encourage those of you that can, to attend the 4<sup>th</sup> annual "Women in Weed Science" Networking Breakfast with speaker Cheryl Dunne, Syngenta Crop Protection, sharing about her experiences as one of the Women of Acuron. Please attend this year's Industry Breakfast, which will feature Kevin Folta, Professor and Chairman of the Horticultural Sciences Department of the University of Florida, Gainesville, FL presenting "Communicating Agricultural Innovation to a Concerned Public." The Industry Breakfast is open to all attendees at the meeting, and tickets for the event can still be purchased on site.

The winners for the Graduate Student Paper and Graduate and Undergraduate Poster Contests will be announced at our Society Social on Wednesday night. Please help us congratulate our NCWSS students.

The NCWSS is a volunteer organization. I encourage you to be involved, to ensure its continued success. Your attendance, giving presentations and service on one or more of our many committees is welcome. Every committee of the society will be meet during the conference. Please feel free to attend any of the committee meetings that interest you, and please volunteer to serve.

Thank you for allowing me to serve you as President of the NCWSS. I believe that together we will make significant contributions to weed science and to the NCWSS. If you have suggestions on how NCWSS can serve you better, please let me know. I look forward to seeing you in St. Louis.

Greg Dahl, President
